Color-screen Expansion Module

DXP60

Key Features

- Stand with 2 adjustable angles
- Up to 60 programmable keys
- Supports up to 3 modules daisy-chain
- 4.3" 272 x 480-pixel color display screen with backlight
- 20 physical keys on each page with dual-color LEDs

Overview

The Dinstar DXP60 expansion module is dedicated to expanding the functionality and enhancing the flexibility of SIP phones. The DXP60 features a 4.3-inch pixel color display screen with backlight, providing users with a rich visual experience. It supports 20 physical keys with dual-color LEDs, offering 3 display pages and up to 60 programmable keys. The DXP60 is suitable for receptionists, administrative assistants, call center agents, advanced users, and managers who need to regularly monitor and manage a large number of calls.

DXP60 is a feature-rich and practical color screen expansion module that can be used in conjunction with Dinstar's C63 series, C64 series, and C66 series SIP phones. It supports various call functions such as speed dial, intercom, call hold, call transfer, and voicemail, allowing users to efficiently handle a large volume of call services.

Model	Screen	Supported IP Phone	Power Adapter
